Student Pickets Protest CIA-M.U. 'Co-operation'

About 12 pickets marched in front of Read Hall for two hours this morning, 10 a.m. to noon, protesting the use of University facilities by the Central Intelligence Agency (CIA) for recruitment of students.

Rory Ellinger, a University graduate student (not pictured), said that in past actions the CIA had been "un-American" and that the Students for Democratic Society were opposed to co-operation given the CIA by the University, and Dean of Students Jack Matthews in providing the mechanism for recruiting.

Michael Lattman, chairman of the SDS, sponsors of the picketing, said that many members had signed up for interviews with the CIA tomorrow to indicate to the interviewer the SDS attitude.
